

“The impact of John F. Kennedy’s assassination radiated in all directions, like the ripples from a stone dropped into water. The event had such force that we still feel it today, nearly forty five years later. The echo from Dealey Plaza reverberated around the world and altered the course of American life. It also affected countless individual lives, one of them mine.”

**“Heart-rending...
An astonishing tale of
aborted justice.”**

An utterly unique new perspective on JFK’s assassination by the first African American assigned to the White House Secret Service detail.

Abraham Bolden’s dream quickly turned sour when he found himself subjected to open hostility and blatant racism by the entrenched “ol’ boys network” that characterized the White House Secret Service detail. He was appalled by the team’s irresponsibility, with agents often drunk or absent from their posts. Following JFK’s assassination, Bolden sought to expose the Secret Service’s negligence, only to find himself the victim of a sinister conspiracy that resulted in his conviction and imprisonment on a trumped up bribery charge.

A gripping memoir substantiated by declassified government documents, *The Echo from Dealey Plaza* is the story of the terrible price paid by one man for his commitment to truth and justice, as well as a thought provoking revelation about the circumstances surrounding the death of a president.

**“A world of duplicitous charges
and disappearing documents fit
for a movie thriller.”**
